13	MW0048	SHRINK NYLON			

Description:

Short description: Multi-function panel

Long description:

1- Full solid panel.

2- The Alum thickness varies from 1.0 to 1.2 mm depending on the profile code part.

3-The panels are covered with modified upholstery Fabric where it provides diversification of the sound signals (where it is perfect for the call centers and open areas). The 5MM MDF is laminated with wood grain shapes / fabric can be installed instead of the laminated MDF.

4- The bottom part has a track (cable management raceway), for electrical wiring, and punched in 2 locations for the sockets as per the American standard sockets / or the British standard sockets.

5-The unit is of a double skin system where fabric can be dismantled from each sides independently and can be replaced, without affecting the other side, all you need to dismantle the fabric part is a spatula.

6- The products are guaranteed for 3 years against manufacturing defect.
